

GREEN REVIEW

Ecolimo - Be seen to be green... even on the move!

Now there is an environmentally friendly car hire and limousine service operating in Sydney and Melbourne. Utilising the Toyota Prius as their car of choice, Ecolimo also purchases carbon credits from Carbon Friendly to offset all of their unavoidable CO2 emissions. Making them the greenest option in the car hire and limo industry, and with Ecolimo you get all the comforts and benefits of a hire car service for only around 20% more than a taxi service – a small price to pay when you consider that Ecolimo's Toyota Prius produces only 40% of the CO2 emissions of a regular taxi. If we keep taking the cheapest option in the short term it is going to cost all of us a hell of a lot more in the long run.

The Ecolimo vehicles use regenerative braking technology, electric motor drive/assist and automatic start/shutoff to dramatically reduce the energy and petrol needed to run. In addition to their fleet of Toyota Prius, they also offer the Lexus GS450h, a sensationally well appointed petrol/electric limousine, for those extra special occasions.

Arriving at your next engagement in an Ecolimo will not only reduce your carbon footprint but also contribute to greater community awareness about our responsibility to the planet.

Whether it be, for business or pleasure go green wherever you can; and now with Ecolimo in Sydney and Melbourne you can. Ecolimo has monthly account options for regular business and maintains an excellent level of reliable service to make your trip an enjoyable one. They even have a special offer to all our readers giving you one free ride for every ten booked. Book online at www.ecolimo.com.au

Australia's first environmentally friendlier limousine service.

Ecolimo is an environmentally friendlier limousine service. We provide chauffeur driven hybrid/petrol cars including the Toyota Prius and the Lexus GS450h to ensure a clean, smooth ride, which greatly lessens impact on the environment whilst travelling. Our vehicles release up to 85% fewer co2 emissions than the average limousine or hire car. Our drivers are experienced and friendly so you will not be compromising comfort or safety when you choose our service.
